Designer Panels

The Designer Panel range has been developed to provide the perfect complement to our existing Smart door solutions – including our proven Alitherm Plus and EcoFutural ranges.

The Designer Panel range has been carefully selected to suit a wide range of house and apartment styles, their elegant good looks making a striking design statement for the discerning home-owner.

Each Designer Panel is manufactured by the specialist Smart fabrication team, guaranteeing complete quality assurance throughout the manufacturing process – from production and finishing right through to delivery – and ensuring that every door panel is made to our exacting quality standards. Every panel receives a full, final quality inspection before it leaves our factory.

Offering high security together with low-maintenance and durability, the new Designer Panels have been engineered to deliver long-life, robust performance.

Guaranteed Performance

Our research and development team focused on creating a range of door panels that deliver everything you need in terms of security, performance and quality. From the specification of the raw materials, right through to the application of the high-quality, lustrous finish, we monitor, measure and control quality at every stage of the door's life. Each door receives a final, comprehensive quality inspection before it is ready to leave our factory.

PAS24 Assured

When used in conjunction with our PAS 24 Tested door systems.

Marine Grade*

Our Qualicoat approved powder coating is applied to a Marine Grade

Made By Smart

Designed and manufactured by Smart, the UK's leading supplier of aluminium systems.

Weather Resistant

Highly rated water tightness, resistant to moisture, chemicals, UV damage & extreme winds.

Construction

Constructed using 1.5mm powder coated aluminium sheets bonded to a Bre A+ Rated CFC Free Expanded Panel Polycore.

Maintenance Free

A routine 'wipe-clean' is all that is required to keep our door panels looking their best.

* Marine guarantee applied for separately. Qualicoat is a quality-label organisation established to maintain and promote the quality of coating on aluminium and its alloys.

High Performance

We have a reputation for commitment to high standards of quality and workmanship. We provide a comprehensive guarantee on our door panels which covers the paint finish for 25 years.

MANUFACTURED BY SMART

With over 40 years' experience, we are the UK's leading supplier of window and door systems and take great pride not only in the quality, breadth and depth of our product range, but also in our design expertise and support services.

We operate from a modern manufacturing plant in the south west of England, which houses three extrusion presses and three paint lines, as well as our logistics and distribution hub. Across all our operations, we are fully committed to reducing our impact on the environment and are working hard to become both carbon-neutral and energy self-sufficient.

MADE IN BRITAIN

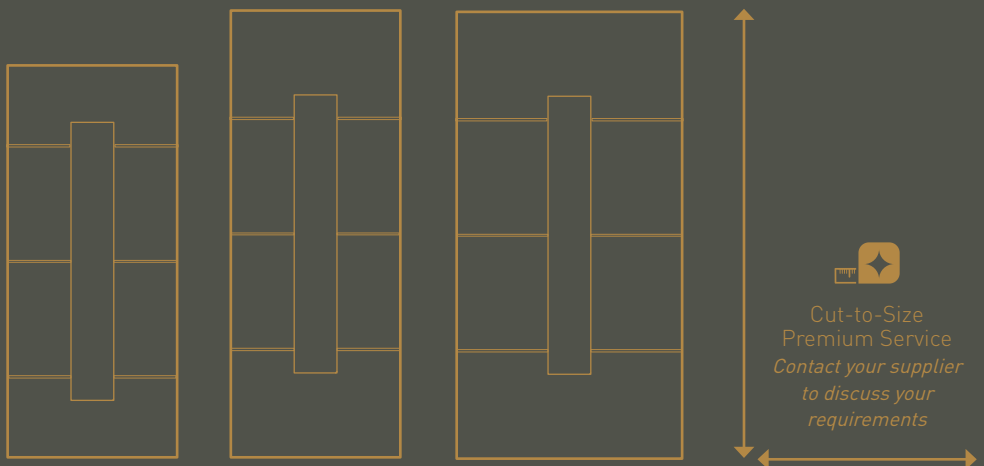

We are proud to be recognised as a British manufacturing success story – and to be a member of the Made in Britain network.

Colours and Finishes

As well as being able to colour match to any RAL colour of your choosing. We also have five carefully curated collections (Alchemy, Creations, Cotswold, Naturals and Sensations) which are comprised of our customers' favourite colours. Each collection is not only distinctive in look and mood but has been expertly created to suit every style and home. If you would like to receive our free colour guide simply contact us.

Dual Colour Powder Coating

Our highly skilled workforce and state-of-the-art powder coating facilities means we are constantly developing our product offerings. For a truly bespoke look and feel we offer dual colour finishes on our door panels and frames.

The interior and exterior of most properties can vary considerably in terms of style and finish. With dual colour the design options are endless. You can choose to have contrasting colours and different finishes on both the door panel and frame (internally and externally).

DESIGNED TO COMPLIMENT OUR EXISTING SYSTEMS

Our door panels collection has been developed to complement to our Alitherm Plus and EcoFutural ranges.

Each system is designed and manufactured by Smart to the highest standards, delivering elegance and outstanding performance over a lifetime of use.
